

# Page builder template alignment

Versie 1

Gepubliceerd 22-aug-18 07:37 door [Paul Swaak](#) Laatst bijgewerkt 22-aug-18 07:37 door [Paul Swaak](#)

Add this CSS to fix the issue with the 3rd widget down. This will insure there is no margin on the first list item in each row.

```
.thumbnails>li.span4:nth-of-type(3n+1) {  
  
    margin-left: 0  
}
```

For the issue with the second widget you just need to change the template from Card Deck (2 across) to Card Deck (2 Across) adjusted. This should be the new template that was created to fix the issues you submitted in a previous case.
