En en NL content in any editor section to sync with language selection:

```
<div class="language-dutch"> content in between </div>
```

```
<div class="language-english"> content in between </div>
```

header homepage

```
<div class="language-english"></div>
<div class="language-dutch"></div>
```

Full wide Ifram with Dutch and UK website link

```
<div class="language-dutch"><iframe width="100%" height="900" style="overflow:
hidden; height: 900; width: 100%;" src="https://appshop.transportlab.org/app-shop-
overzicht/" frameborder="0"></iframe></div>
```

```
<div class="language-english"><iframe width="100%" height="900" style="overflow:
hidden; height: 900; width: 100%;" src="https://appshop.transportlab.org/en/app-
shop-overview/" frameborder="0"></iframe></div>
```

Axero container with text and image content

```

<div class="axero-widget">
<div class="axero-widget-header" style="color: #003366;">
<h5>App Shop</h5>
</div>
<div class="axero-widget-content" style="padding: 15px;">
<p></p>
<div class="language-dutch">
<p><a href="/spaces/9/transportlab-community/about/transportlab-appshop-full-screen">&nbsp;Volledig Scherm</a>
</p>
<h4><span style="color: #ff6600;">Apps&nbsp;voor&nbsp;transport,
logistiek&nbsp;en mobiliteit!</span></h4>
<h4><span style="color: #ff6600;"></span>
</h4>
</div>
<div class="language-english">
<p><a href="/spaces/9/transportlab-community/about/transportlab-appshop-full-screen">&nbsp;View Full Screen</a>
</p>
<h4><span style="color: #ff6600;">Apps for transport, logistics and mobility!</span>
</h4>
<h4><span style="color: #ff6600;"></span>
</h4>
</div>
</div>
</div>

```

If needed

Also add to bottom of cms page:

```

<script type="text/javascript"> $(function () { var langCookie =
$.cookie("Communifire_UserCulture"); var lang; if(langCookie == 'nl-NL') { lang =
'.language-dutch'; } else { lang = '.language-english'; } $(lang).addClass('chosen-
language'); }); </script>

```
